Profile

Computer Engineering student at ENSA Tangier, with experience in full-stack development (Angular, React, Vue.js, .NET, Spring Boot), REST APIs and AI solutions. Experienced in Agile projects, Docker, GitHub Actions and microservices architectures. Seeking an end-of-studies (PFE) internship to contribute to projects in software development, web, AI or DevOps.

Education

National School of Applied Sciences (ENSA) — Tangier, Morocco
Integrated Preparatory Cycle & Engineering Cycle in Computer Engineering — *2022 – 2027*

Lycée Imam El Ghazali — Taounate, Morocco
Baccalaureate in Physical Sciences, French option — *2021 – 2022*

Experience

Summer Internship (PFA) – Smart Clinic Platform — Jul. 2026 – Aug. 2026
Focus Next Computing — *Casablanca (hybrid)*

- Developed an interoperable digital health platform (care management, follow-up and remote monitoring of connected patients) in a team of 5 interns using Scrum
- Worked on the **physician workflow**: electronic medical record, consultation and prescriptions. Worked on the **pharmacist workflow**: patient search, prescription lookup and dispensing
- Applied development methods such as **SDD** (Specification-Driven Development) and **TDD** (Test-Driven Development), and implemented access control with **Open Policy Agent (OPA)**

Introductory Internship – Wizers (digital inclusion platform for seniors) — Jul. 2025 – Sept. 2025
Smart Automation Technologies — *Remote*

- Designed a hierarchical taxonomy of professional actors to structure the platform's directory
- Developed an intelligent chatbot based on the RAG (Retrieval-Augmented Generation) architecture in Python
- Improved the platform's user interface (UI/UX) using Angular

Personal Projects

Propel – AI-Powered CV Application | *ASP.NET (C#), Angular, Python* — Mar. 2026 – May 2026

- Developed a Python agent that automatically sends job application emails, reducing manual work
- Contributed to the integration between the ASP.NET (C#) backend and the Angular frontend
- Performed end-to-end testing of the web application to ensure system reliability

QuickMove – City-to-City Delivery Management | *REST API, Backend* — Dec. 2025

- Developed backend features for managing delivery requests and orders
- Designed and implemented 10+ RESTful endpoints enabling communication between the frontend and backend services
- Contributed to improving the user interface at the end of the project

Soft Skills Tracking Web Application | *Vue.js, MySQL, GitHub Actions* — Feb. 2025 – May 2025

- Designed and developed 10+ dynamic Vue.js components covering all frontend features
- Integrated a MySQL database for tracking and persisting user data
- Collaborated in an Agile team on a project with 567 commits and a CI/CD pipeline via GitHub Actions

Technical Skills

Languages: Java, C++, JavaScript, TypeScript, Python, SQL, C#
Frameworks & Libraries: Spring Boot, Vue.js, Angular, React, Node.js, Express.js, ASP.NET
Databases: PostgreSQL, MySQL, MongoDB
AI & Automation: RAG (Retrieval-Augmented Generation), Python Agents, n8n
DevOps & Tools: Docker, Linux, Git/GitHub, GitHub Actions (CI/CD), Postman
Concepts & Methodologies: Microservices, RESTful APIs, OOP, Agile/Scrum, Collaborative development

Languages & Soft Skills

Languages: Arabic (native), English (B2), French (B2)
Soft skills: Teamwork & Agile collaboration, adaptability to new technologies, time management & meeting deadlines
